VULTR AGENT RUSH · TRACK 01 · BLAST RADIUS ZERO

IoC Sentinel

An agent that investigates suspicious URLs and writes the threat report, without letting the threat touch anything that matters.

github.com/JuanChavarriaU/ioc-sentinel

THE PROBLEM

Analysts open dangerous links.
Agents should not inherit the risk.

HOW IT WORKS

Trusted code holds the secrets. Untrusted code holds nothing.

CHALLENGE 1 · CONTAINMENT MOMENT

The sandbox proves it is contained, live.

BUILT ON VULTR

One command up. One command down.

VERIFIED RESULTS

Malicious page: caught. Analyst: still in control.
